Samskriti Offers Free SEO Website Audit

prcom | April 4, 2014

Hyderabad, India, April 04, 2014 –(PR.com)– Samskriti, an online marketing agency in India offers a free and online website review and SEO audit. Interested web owners can send a message with details such as name, email address and website address. One of Samskriti's SEO experts will contact them with a detailed report.

The report would include an end to end analysis and evaluation of website structure in terms of Meta tags, relevance of existing keywords, inbound and outbound link analysis, image optimization, text variances, content analysis, etc. "Our SEO experts check HTML codes for existing sites. We also check if the existing web design and structure is SEO compatible and in line with current Google algorithms," says a spokesperson for the company.

"Although there are many web development companies offering SEO audit, such an exhaustive analysis is rarely provided. And what's more, we do not bind web owners to choose our service to implement the suggestions mentioned in the report," adds the spokesperson.

SEO experts at Samskriti have helped hundreds of clients to gain search engine prominence by recommending them with solutions to increase their conversion rate and improve inbound and outbound linking. The experts also offer a good navigation structure to improve the look and feel of the website.

The company is among the very few companies in the South to partner with the Internet and Mobile Association of India (IAMA) as the latter's digital marketing partner. This association would also help to build the brand image of digital marketing in India. Samskriti was recently invited to the association's 8th India Digital Summit Meet held at New Delhi as its Digital Marketing Partner.

"This association will not only help Samskriti enhance its customer base, but also cement its position in the Indian digital marketing arena. We also expect to benefit from the ongoing research and industry related studies undertaken by the association," says a spokesperson for this Indian online marketing agency.

"We realized from early on that conventional SEO has moved beyond providing organic ranking solutions. It is now about branding and reputation management. Our aim is to drive quality traffic and increase conversions by popularizing the client company's brand image," adds the spokesperson.

About Samskriti Business Solutions:

Samskriti has been consistently listed among the top SEO companies and web development companies in India. They are a certified Google Adwords Partner Company and are listed as Google's Certified Partner for Pay Per Click Management. Besides offering SEO, PPC, SMO, Website Design and Development, they also offer Affiliate Marketing and Brand Reputation Management. The company also stands true to its motto of giving back to the society by donating to various charity organizations like the Boggavarapu Seetha Ramiah Memorial Training Centre for the Handicapped and the Godavari Maharadhi Program.
